March 26, 2020

Hi Everyone,

Hope you are doing well. We have been very busy this week, continuing with various infection control measures that will hopefully work to keep everyone in our St. Jude's Community safe.

Of particular note is that as of March 23rd, all staff working at St. Jude's are working exclusively at our care home. Also, all staff are actively screened at the beginning of each shift and all deliveries are dropped outside so that only screened personnel enter our home.

As you can see, we have become increasingly aggressive in our monitoring efforts and are doing everything we can to minimize risk.

Because of this, we are now asking that families no longer bring food or other items for their loved one or staff. I realize that this seems extreme and normally it would be but bringing in outside items does have some risk and could undo all our other efforts. We thank you for your understanding about this.

On another note, we have been working on how to keep Residents and Families connected. We have capacity to Skype with family, so if you are familiar with and equipped with Skype, please email recreation@stjudes.ca to arrange a time with Mara to have a quick visit with your loved one. We also arranging window visits. Please contact nursing or recreation.

Thank you to everyone who has emailed your good wishes— it is wonderful to be able to share these notes with our staff and inspire them on for another challenging day.

Kind Regards,

Jill van der Linden, *MHLP, RD*
